

SURESERVE[®] OPTIX

Cleaning Chemical Control

100%
IRISH

Utilising

Secures the formulation within the container / bottle governing a regulated pre-determined dispensing dose.

UN Certified

Reduces
Packaging
Consumption

Eliminates:

- Misuse
- Pilferage
- Contamination
- Waste

Cleaning Chemical

Everyday dosing systems fail to provide a closed secure container dispensing arrangement to safeguard against unrestricted methods of use.

Suresave®Optix solves this problem

Patented

Aperture® Irremovable Dispensing Closure secures and controls the use of chemicals, preventing misuse, pilferage, contamination and waste as well as **Reducing Cost**

SURESAVE
OPTIX

Control

The system ensures managed use of the Bio Degradable / EN Certified formulations, for the Professional Cleaning, Food Service and Healthcare environments.

Chemical Concentrates

6 SURESAVE OPTIX concentrates available

Bio-degradable and phosphate free

Excellent product performance

Formulations reduce the amount of chemicals required

EN certified sanitizers and disinfectants for food preparation and healthcare applications.

EN 1276, EN 13697, EN 13727 (MRSA, VRE, ESBL).

Up to 120 dilutions per 2l concentrate

Secure container design, reduces space and storage.

Colour coded user safety data with bespoke wall charts provided with every dilution system installed.

Case Size: 4 x 2l

Spray Solutions

Colour coding and numerical symbol with screen printed labelling ensures a simplified cleaning system, which overcomes language barriers, counteracting any misunderstanding on the proper use of the chemicals, making them suitable for anyone to use.
